St. Anthony Basin Resources Inc.

"Part of our Future ... Part of our Region"

Minister Mifflin 1997 Announcement

"I am announcing today a special allocation of 3000 tonnes for the Northern part of the Great Northern Peninsula, which takes in communities from Goose Cove to Big Brook.

The revenues derived from this allocation will be used to finance fisheries development opportunities for fishermen and plant workers. It will be used in an area where employment opportunities in the fishery have been extremely limited since the collapse of the northern cod stock.

It is now up to the fishermen and plant workers to establish an acceptable organizational structure to administer this allocation."

GREAT NORTHERN PENINSULA

- Fish processing Workers 4
- Fish Harvesters 5
- Community Reps. 4
- Chamber of Commerce 1
- Rising Sun Developers 1

- Executive Director
- Assistant Executive Director
- Program Coordinator
- Aquaculture Workers 3 seasonal

To administer a 3000mt allocation of Northern Shrimp on behalf of the communities from Big Brook to Goose Cove, in a manner resulting in expansion of the region's economic base and improved employment opportunities for its residents.

NEW HARVESTING CONTRACT SIGNE

In 2012 SABRI and Clearwater successfully negotiated a new harvesting contract for the 3000 mt allocation of Northern Shrimp. It is for a ten year term which commenced on April 1st 2013, upon expiration of the original agreement.

The Board of Directors of SABRI is very pleased with the partnership with Clearwater and look forward to continuing to work together over the next ten years.

Partnerships

Clearwater Crewing

Partnership - Clearwater

• Invested in excess \$15.9 million in infrastructure

Partnership – St Anthony Seafoods

Partnership - Clearwater

Partnership – St Anthony Cold Storage (EIMSKIP) Inc.

SABRI Signs Lease Agreement

20 year deal signed with Eimskip on February 4th, 2015.

 New operational name as of March 1st, 2015 is :
St. Anthony Cold Storage (Eimskip) Inc.

Partnership – St Anthony Cold Storage (EIMSKIP) Inc.

Fishery Development

- Partner with Port Authority
 - Ice Breaking
 - Purchase of a boat lift
- Sea Cucumber Surveys
- Whelk Projects
- Salt Fish Projects
- Toad Crab Project
- Snow Crab Bait Projects
- Mackerel Trap Projects

Support for Fisheries Initiatives

Marine Lift Infrastructure

- SABRI partnered with The St. Anthony Port Authority, The Town of St. Anthony, BTCRD and ACOA to fund a project to Construct a ramp and lay-down area to operate the Marine Lift From. SABRI's Contribution was \$100,000 of a \$900,000 project.
- Small boats have been using the lay-down area since the fall of 2014.
- There has been a total of 23 boats on the lay-down area for winter store

2015-11-22

- > In polars with the Eagle River Credit Union, and NORTIP, SABRI offers low interest loans to fishermen.
- A loan can be any amount up to a maximum of \$20,000 with interest rates determined by the financial institution involved. At the end of the term of the loan SABRI will buy the fishermen's interest down to 5% providing the loan has remained in good standing.
- SABRI also provides a 50% guarantee of each loan. There is a total of \$200,000 available for fishermen to

Aquaculture

 Mussel Farming
SABRI continues to operate three mussel farm sites and a primary processing plant providing a superior product maintaining excellent meat yields throughout the season. Local sales continue to increase.

We continue to investigate

s to maximize the he farms and to increase

SABRI's aquaculture operation continues to employ three seasonal employees and one student through the Canada Summer Jobs Program.

Aquaculture

Nutraceuticals

SABRI has been working with MUN's Department of Biochemistry , Dr Cheema, to determine the benefits of Blue Mussel and sea cucumber to target insulin resistance and obesity. The first report was published in Sept 2014 showing that BM and SC are new sources with the potential to > target insulin resistance and obesity. We have entered into a new two year project with MUN to further study this potential source.

Wild Bight SABRI A People of Spirit, Courage and Resourcefulness

PREFACE

With them the seed of wisdom did I sow And with mine own hand laboured it to grow And this was all the harvest that I reaped "I came like Water, and like Wind I go."

- The Rubaiyat of Omar Khayyam

What do the people of northern Newloundland have in common with a poet by the name of Omar Khavvam? At first glance, nothing, except that this obscure piece of Persian poetry captures the essence of what this year-long Community History Project has taught me.

In the past year I ventured into sixteen communities: telephoning, knocking on doors, and sitting at kitchen tables drinking endless cups of tea, trying to learn customs, traditions, and wisdom from the older people in northern Newfoundland so that the stories could be set down in writing and preserved for future generations. With them the seed of wisdom did I sow...

Back at the office, after each interview, I would review the outcome of each story and try to write in a format that would satisfy not only the person interviewed, but the people who would read the stories at some future date. And with my own hand laboured it to grow ...

By year's end there were stacks of photographs, pages of typewritten interviews, maps criss-crossed with names and dates, and hand-drawn pictures submitted by enthusiastic contributors. In people's homes there were interviews where we laughed, cried, walked over hills to the back of land, walked along winding pathways to graveyards, ventured out on the high seas in boats enjoying boil-ups with scalding tea, fisherman's brewis, beans and bread, and still more stories

In these interviews, I was often perplexed by words and expressions totally unfamiliar to me and, without

the assistance of my husband. Len Tucker, I suspect the dialect would have defeated me utterly. Yet it is the words and expressions of northern Newloundland that are, and were, the lifeblood of communication in a time when modern technology was unheard of. I learned that, while there are official names on Newfoundland maps, local fishermen have their own names for islands, bays and coves. I learned that the people who settled this wonderful, terrible place have an intimate relationship with the sea and the land that no tourist or outsider can truly fathom or appreciate. And at the end of the year, I knew that I had only managed to collect a few small pieces of the puzzle that make up a larger picture of hardships endured, joys celebrated, and lives lived to the fullest. And this was all the harvest that I reaped...

Canala and

I came like water and like wind I go ...

This precious generation of people you will read about in these pages were born, lived, and will, one day, pass on. In writing their stories I have attempted to grasp the 'wind and water' of their lives - as well as their customs and traditions - which are tast slipping away into obscurity.

This is not so much a historical document as it is an opportunity for these people - in their own time and in their own way - to tell the stories that were nearest and dearest to their hearts. Whether you are a student, a come from away, or a Newfoundlander, you may find in these pages the heart and soul of the people of Newfoundland
